

Real California Cheese Processor List

The following is a list of California cheese processors (and other contacts) who are authorized to use the Real California Cheese® seal. Seal use is regulated by the California Milk Producers Advisory Board (CMPAB), an instrumentality of the California Department of Food & Agriculture, as a way of certifying that consumers are purchasing natural cheese made in California exclusively with California milk. All cheesemakers using the seal have undergone a special inspection by the CMPAB. Cheeses listed here are representative, but not inclusive, as new cheeses are being produced by California cheesemakers on a regular basis.
